

Popponesset Spit View

- **Fragile Barrier Beach**
- **Significant changes in length and width over the years**
- **Channel dredging at tip prevents spit elongation and provides replenishment materials**
- **When twice its current length, the channel formed between the spit and mainland was a productive oyster fishery**
- **Parking for 6 cars, by the State Public Access Board on southern end of Wading Place Road**

From the Mashpee Rotary, follow Great Neck Road, South to the New Seabury Main Entrance and travel Wading Place Road to its terminus.
