

Santuit Pond

- Max. depth=10 feet
- No inlet (spring fed), exchanges water with 2 Cranberry bogs
- Town Dirt Boat Ramp off Timberlane Drive
- Excellent warm water fishery and anadromous fish run
- Headwaters of the Santuit River
- No Town swimming facilities
- Extensive conservation lands around pond
- The pond currently suffers from nutrient over enrichment and suffers from continuing Blue-Green algae blooms. The town is active in attempting to resolve the problem
